*"Had you committed just £100 a point to all of Henry's selections over the past twenty years you would have made profits averaging **£246 a week**. That's a massive, tax free annual salary of over **£12,792**, or a mouth-watering **£255,996 over the past twenty years** – more than many of us could hope to save in a lifetime."*

And the icing?... The taxman can't get his hands on a penny of it. Unlike most other gains from investments, winnings from gambling are completely tax-free.

Even smaller backers betting at just £50 a point would be an incredible £127,998 better off than they were in 1996 had they followed Henry."

THE PUNDITS PRAISE HIM
